

**The Wake-Up call to the youths of Arunachal Pradesh**  
**By : Nabam Atum**

**President, Indigenous Faith  
and Cultural Society Of Arunachal Pradesh**

In the history of a nation, there are some crucial dates when history takes the turn because of significant incidents that occurred which shaped the future course of history. Say for example, the year 1857. The freedom war that took place on a particular day in this year changed the future course of history of our great country – Bharatvarsh. Similarly, there are some crucial dates in the socio-cultural and political life of our state Arunachal Pradesh. One such date is the day when “Elam Kebam” was first formally constituted by Talom Rukbo - the great visionary and epoch-maker of our state. This has awakened us to rise and work for preservation, protection and promotion of our age-old colorful culture and religion. The 31<sup>st</sup> of December last year (2007) was another date when Indigenous Faith and Cultural Society of Arunachal Pradesh had organized a grand public rally at Itanagar and simultaneously at other 85 places of the state where in the various aspects of our religion and culture were discussed. The total 89 dedicated participants from other seven states of NE region took part in this noble program. The people of Arunachal Pradesh were energized and enlightened about the lurking danger on the indigenous faith and colorful culture. Now, this program-the Yuva Sammelan (Youth Convention) on 29,30 November and 1<sup>st</sup> December this year. This program will prove to be another mile stone in the socio-cultural and religious life of Arunachali people. This program-the Yuva Sammelan is dedicated to the youths of society. The youths are the vital section of any community. They are the vehicle of virtuous reformation, constructive and qualitative transformation and progressive promotion of the society in the field of religion and culture, economy, education, healthcare and all other spheres of human life.

The great Talom Rukbo had visualized the significance of unity, integrity and amity in the society for its prosperous living. He mooted the idea and started organizing the people under the aegis of Elam Kebam. After a long march, it is now in the form of Indigenous Faith and Cultural Society of Arunachal Pradesh which is nothing but the socio-cultural and religious reformation movement in this bordering state adjoining China. It aims to undertake the activities which will promote our religion and culture and enthuse spirituality in the life of the people. Our organization also aims to cooperate with government in such endeavors which will promote the spiritual life of the people of the state. We cooperate with such non-governmental organizations (NGOs) who are serving the society with similar aims and objectives. On this occasion, let me draw your attention on some of the glaring and grave dangers lurking on our state.

The Threat from China

A vibrant and progressive society is always alert against the dangers. There are some divisive forces active in the state to weaken our society. The neighboring country China is a communist and expansionist country. It has swallowed Tibet and Taiwan. The Tibetans and Taiwanis are subjected to in

human treatments. China has caused genocide of Tibetan people to suppress the Tibetan revolt. "Tibet is now dying under Chinese iron-fist rule," thus said Dalai Lama. Under the cover of the slogan-Hindu Chini bhai-bhai and joint declaration of Panchsheel (five point peace doctrine) including peaceful co-existence and no aggression on the territories of each other by Nehru and Chao-en-Lai, China attacked Bharatvarsh too and Arunachal Pradesh was the worst victim of that Chinese aggression in 1962. The Chinese army captured Tawang and reached upto Bomdilla near Tezpur in Assam.

Since then, China is illegally occupying 43,180 sq. km. of Jammu and Kashmir including 3,180 sq. km. illegally ceded to Beijing by Islamabad under Sino-Pakistan Boundary Agreement 1963. On the other hand, China accuses Bharatvarsh of possessing some 90,000 sq km of Chinese territory mostly in Arunachal Pradesh. Thus, China is a constant threat to Arunachal Pradesh. What is more worrying factor to us – the Arunachali people is the knee-jerk response of Delhi to this China threat. It is not the Delhi politicians but the people of this state who will be immediate target of Chinese aggression. China is often making claim on Arunachal Pradesh. During a public rally at Itanagar on January 31, 2008 at the time of Arunachal visit Prime Minister Manmohan Singh declared " Arunachal Pradesh was our land of rising sun." This has been followed by another declaration of External Affairs Minister Pranab Mukherjee which says that Arunachal Pradesh is the integral part of Bharatvarsh and it has special place in our heart. Shri. Mukherjee was speaking as Chief Guest at the 8<sup>th</sup> Buddha Mahotsava at Tawang-the border town adjacent to China on 9.11.2008. He also told the people that no settled population would be exchanged. But China angrily rejected Delhi's assertion that Arunachal is the integral part of Bharatvarsh insisting that Beijing never recognized McMahon line and that the status of the border state was "never officially demarcated." Chinese Foreign Ministry spokesman Qin Gang said in Beijing that New Delhi had not taken into account the "historical facts". We do not know what historical fact Qin Gang was referring to. The McMahon line – the demarcation line, drawn up in the map referred to the Simla Convention 1914. Although China disputes its legal status, this McMahon line is currently the effective boundary between Bharatvarsh and China. The special representatives of Prime Minister of Bharatvarsh and China have completed 12 rounds of talks but in vain.

Nothing fruitful has come out so far. There are problems in identification of land between the two countries. The people of Arunachal Pradesh are highly relieved after Manmohan Singh's declaration followed by Pranab Mukherjee's statement that no power can snatch the border state or any part of it including Tawang. The people of Arunachal Pradesh in general and those of Tawang in particular had been living in constant fear as China repeatedly claimed the state as its territory. We appreciate our Chief Minister Dorjee Khandu for emphatically taking up with Central Government the issue of territorial integrity of the state, its economic development and terrorism. There is a vast difference between the situations in 1962 when China attacked our country and that of today. Both the countries – Bharatvarsh and China have become nuclear power and both are fastest growing economies. We need peace to sustain our high rate of growth.

But the people of Arunachal Pradesh should not rest assured that nothing will happen to Arunachal Pradesh because of political statement made by Prime Minister and External Affairs Minister. The people of the state particularly the border communities should always be watchful and alert against silent Chinese aggression experienced very often in the past. Because of Bharatvarsh's deterrent nuclear power and military might, China may not declare an open war against the country but it is engaged in sustained shadow war against us. There may not be Chinese footprints in Assam's blast on October 30, 2008 but intelligence sources say the Chinese have been active in the region for sometimes. Over the past four decades immediately after 1962 war, China have been keeping up the pressure on Delhi in indirect ways the traditionally active arms supply channel which provides fire-arms and explosives to the northeastern insurgent groups. The trade routes in the region are fluid particularly where the Myanmar and China borders meet.

In recent months, intelligence sources say the Chinese have managed to increase the flow of funds into these groups. The weapons recovered from insurgents are reported to be Chinese make. What is more worrying to GOI is that these arms supplies may not be directly sourced. The NSCN has direct link to Chinese intelligence agencies whereas ULFA and other northeast insurgent groups could be working in tandem with groups like NSCN. Chinese intelligence collaborates with Myanmar army to smuggle arms into Bharatvarsh through the tri-border. As reported in media, arms also come in from China's Yunnan province into Ruili in Myanmar and then transported by truck up towards the Bharatiya border. These weapons carry no country markings though the intelligence groups are almost certain that they emanate from the Chinese. The GOI should establish army posts at all the strategic places closest to international border to have round the clock vigil over Chinese movement. The state Government and the people of the bordering areas have greater responsibility to guard the international border. They should have a close liaison with Bharatiya Army posted to guard the international border. The state government should prohibit the establishment of any Church and Madrassa in these sensitive zones. We appreciate Union Government for awarding us a financial package of Rs. 20,000 crores (Twenty thousand crores). Arunachal Pradesh is most peaceful and insurgency free state in whole of the Northeast zone barring few terrorist activities done by both the factions-National Socialist Council of Nagaland (Isak-Muivah) and NSCN (Khaplang) supported by Nagaland Churches in Changlang and Tirap Districts. Thus, the demand of Peace Bonus by the state Government is fully justified. Similarly, Green Bonus is also a genuine demand of the state because the state loses Rs. 70 crore revenue per year since 1996 after the Supreme Court banned timber activity. It was not the fault of the state and it should be compensated for maintaining the biodiversity with 83 percent forest cover.

We support the state governments' efforts in this regard. The Cabinet decision to open two degree colleges – one in Kurung Kumey district and the other in East Kameng district is highly appreciated because both these districts are remote, inaccessible and relatively backward. The people of the area will be

very much benefited by these colleges. We also appeal to the Central Government to fulfill the aspirations of the people of Arunachal Pradesh. Today corruption is the bane of the problem. This corruption comes from top to the bottom. It is never the vice-versa. It is, therefore, the duty of the people of the state particularly the youths to remain vigilant to ensure that the budgetary funds are judiciously spent for the projects/works it is approved for.

#### The conflict over conversion

The Church's aim is to create Christian solidarity on one hand and religious antagonism on the other. A variety of methods are applied to achieve this goal. To establish a church at every hearing distance throughout Bharatvarsh and convert as many Hindus as they can, are the ultimate target of Pope in Vatican, World Council of Churches, World Vision and Baptist World Alliance (BWA) in league with Christian countries like USA, UK, France and all other European countries.

The church works on following five points agenda –

1. *Create a minority through conversion to Christianity*
2. *Give them nationality viz. Nagas and Mizos*
3. *Instigate the Christians to demand an independent country and revolt against elected government*
4. *Organize armed training to insurgents and supply them the fire-arms*
5. *Mobilize international support through propaganda mechanism*

The history of Mizo revolt in early nineties and sustained Naga insurgency and their demand for independent Nagaland reveal this fact. The active support of Rev. Michael Scott and Billy Graham – the British missionaries to Naga insurgency through Phizo and his Naga National council (NNC) from the very beginning in 1947 till now has gone on record in the history.

The active support of Bush Government of USA to Naga insurgent organizations is known to Govt. of India, media and the awakened section of the society. It is a different matter that even after having the complete and compiled information about this, GOI does not take any action for obvious reasons. Delhi durbar is surrounded and manned by such elements that appear to have sympathy with these divisive forces, neglecting the unity, integrity and sovereignty of the country.

Taking the advantage of disunity in Hindu society, their doctrine of sarva dharma samabhav (equal status to all religions) and silent support to Church by the various Governments in the states and Centre, a variety of methods are adopted by the Christians for achieving this goal. Among them a very effective input comes from educational institutions, hospitals, camouflaged NGOs and other service activities. These are the institutions which prepare a fertile ground for conversion on one hand and provide an effective shield to their anti-national and anti-social activities on the other. In addition to these activities a door to door contact with the Bible in vernacular language to be free distributed, condemnation of native Gods and Goddesses, demonization of native socio-cultural organizations, distortion of history and anthropology, causing mass

conversion, breeding insurgency and finally leading to a secessionist militant movement are but few projects which church works on.

The Nagaland Baptist Council of Churches (NBCC) and National Socialist Council of Nagaland (Isak-Muivah-NSCN-IM) have stated few years before that they have 10,000 missionaries ready to preach the gospel in the un-reached people (followers of native religions) living in neighboring states of NE region, Nepal and Myanmar. Arunachal Pradesh is their first and foremost target. NSCN (IM) and Nagaland Churches are helping each other in this task. There is another threat to state boundary of the state adjoining Nagaland. NSCN (IM) claims few districts of Arunachal Pradesh including Changlang and Tirap to be incorporated into their proposed Greater Nagaland. They have shown a large portion of our state into the map of Greater Nagaland distributed among their sympathizer countries. NSCN (IM) has an eye on thick forest cover of our state after destroying all the forests in Nagaland.

#### Conversion is a violence

The conversion of even an individual caused grave disruption. His family is torn apart. Tensions erupt in the community. This is all the more so because after converting him, in several instances during the conversion proceedings themselves, the converters make the person do and say things that grievously offend the original community of the person; the individual is led to not just repudiate but denounce gods and rituals in which he has grown up, to do things which is forbidden in his original religion or community, for instance, to demolish the mandirs and to eat the flesh of cow, dog, bulls and buffaloes which are prohibited. These things do not happen accidentally. They are designed, on the one hand, to cut finally, dramatically inflicting psychological violence-such residual cords which may still survive in the individual's mind and on the other, their object is to make it that much more difficult for the individual to revert to his original community.

What the person has done – the abuse he may have hurled at the native gods and goddesses, the food he may have taken in the feast after conversion ceremony – get known to his family and community, information about it is deliberately passed to the family and community. Angered, the family and the community distance from the man-the prey of the church. And there is the other side, as he is no longer able to return to his family and community; he completely becomes dependent on his new “family” and “community.” Finally, the whole converted community becomes totally dependent on foreign funded Church after being cut-off from their forefathers' roots. Naga Society and Mizo society are glaring testimony to this conspiracy. There is another aspect of conversion crusade. This conversion is a political conquest which is why, Christianity and empire have always gone hand-in-hand. Currently, the National Association of Asian Indian Christians in USA, Inc. Indian Christian Forum and Gujarat Christian Federation have joined hands to invite Western Christian intervention to facilitate Christian conversion in Bharatvarsh. If the religion is being exchanged like a market commodity, does the missionary have the license to conduct such transaction? Bharatvarsh is fully aware that almost all western governments provide generous funding to evangelists; this has a political and not a religious

objective. Israel was created by dumping European Jews on Palestine; East Timor was created by a full-scale conversion of Muslims in that part of Indonesia. Bishop Carlos Bello and Dr. Jose Ramos Horta – the Christian rebel leader shared the Nobel Peace Prize for creating a Christian country – East Timor out of Indonesia. Ang San Sui Kui – is another Christian rebel lady who has been awarded Nobel Peace Prize for leading the armed revolt against the established government in Myanmar. Similar mechanism is also applied here in our country.

We all know that Mother Teresa was awarded Nobel Peace Prize for success in conversion business but Mahatma Gandhi was ignored because he fought against white aggression in South Africa and Bharatvarsh.

The freedom of religion guaranteed in our constitution (art. 25) does not allow the right to convert in any manner. The various provisions of the constitution pertaining to freedom of religion are misinterpreted to suit the conversion business of church. However, there are some ambiguity in the various provisions of constitution pertaining to freedom of religion, human rights and freedom of expression.

Notwithstanding, there are some self-contradicting provisions too and the divisive forces are making full use these provisions to weaken the county. We propose to set up a Constitution Review Committee to suggest suitable amendments to curb the misuse of constitutional provisions by disruptive forces

On the eve of the year 1999, Pope declared, “In first millennium the Europe was won over to Christ, in second millennium the Africa subcontinent was harvested by the Church and now in third millennium, the Asia subcontinent is our target.” In compliance to Pope’s declaration, all the Christian countries, Vatican and Church organizations are working in complete cohesion to convert Hindu Bharatvarsh into a Christian India. These countries have parallel budgetary fund earmarked to be granted to such NGOs, multinational companies, politicians and political parties, intelligence agencies, educational institutions and other service projects, banks and financial institutions who are helping Church through hawala. That is why, a rapid construction of Churches at every strategic places in Arunachal Pradesh are taking place in quick succession. We are afraid if conversion in Arunachal Pradesh is not checked today, the peace will disappear and the state will suffer from terrorism like Nagaland, Manipur and Tripura.

In our country, the simple janjatis are most vulnerable due to lack of education and other human amenities. The people of Arunachal Pradesh are no exception. There was a time in 1978 when even Mother Teresa was prevented from entering into Arunachal Pradesh. The Freedom of Religion Bill 1978 was passed in Arunachal Assembly headed by Gegong Apong. This was approved by Lt. Governor K.A.A. Raja. The Religion Bill was assented by President of Bharatvarsh but the operative rule has not yet been framed by the government for the reasons not known to us. The situation in our state has changed to such an extent that the State Government has allowed establishing two Bishop Houses – one at Itanagar in the west and the other at Miao in the east.

The Vatican is pouring uncountable money to establish church, missionary schools and service projects which are causing mass conversion of the people.

The people of Arunachal Pradesh are opposing and requesting State Government and Central Govt. to check the inflow of missionaries but the governments have turned deaf year to this cry of people. The Baptist missionaries from Nagaland and the Presbyterian missionaries of Mizoram are in bee-line to enter into the state and victimize Arunachali people. Along with the Naga missionaries the Naga militants have come and they are helping the conversion business at gun point. Anybody opposing this conspiracy are threatened of dire consequences. The conversion incidents followed by Naga militancy in the districts of Changlang and Tirap are testimony to this fact.

The religion and culture of Nagas and those of Mizos have been completely uprooted. Traditional village institutions have been demolished. The customary laws are twisted.

The complete westernization has taken place. The honesty, hospitality and hard work were once the hallmark of Naga society. The simple and honest Nagas have been replaced by the sophisticated and clever Nagas. The Christian Nagas condemn their own forefathers as wild, savage, naked and satan worshipper. The Naga civilization is on the verge of extinction. All these negative development have occurred due to conversion to Christianity. It is very often reported that 40,000 Nagas have been killed because of Naga insurgency. Now also, the killing, looting and extortion are the order of the day in Nagaland. People are crying for peace but it is no where to be seen. The church is in the bottom of all these upheavals.

Arunachal Pradesh is still an island of peace only because of the fact that majority of Arunachalis are followers of native religion. If the people of Arunachal Pradesh desire for a permanent peace and prosperity, the conspiracy hatched by the church must be foiled and the innocent and simple people must be prevented from falling prey of the "Saviours of Soul," "Preachers of Peace" and "Messengers of God" - the missionaries, so that our ancient religion and culture are protected, The underground activities which surfaced after a sizeable number of people got converted to Christianity in Changlong and Tirap, should be an eye opener to us. In this context, I would like to quote a South African philosopher Jomo Kenyata who said, "When Christian missionaries came to South Africa they had Bible in their hand and we had land in our hand. The missionaries asked us to open our hands, close our eyes and pray. We did so and when we opened our eyes we found that Bible was in our hand and the land was in their hand." Noted Gandhian G.C Kumarappa said, "All the countries of the world have three types of defence (i) Army (ii) Navy and (iii) Air Force but the Christian countries have fourth type of army i.e. Church Army. The youths who have assembled here in this congregation should make a note of these historical facts pertaining to Church. The Niyogi Commission Report 1956 is another authentic document which throws enough light on church's hidden agenda. Further, the church is the enemy of ancient civilizations. It has slaughtered Red Indians of America like Cherokee, Aztec, Inca and Maya. The Christian missionaries looted them and killed their civilizations. The support to apartheid rule in South Africa and life imprisonment of Nelson Mandela narrate the gory tales of white Christians. The foreign funded Church has erased scores of native civilizations from the face of

the earth. The people of Arunachal Pradesh must check this missionary menace if they want a peaceful co-existence and prosperous future. We must draw a lesson from the murder of Swami Lakshmananand Saraswati of Kandhmal, Orissa whom the Arch Bishop of Cuttack – Cheenath Raphel and his coterie of criminals managed to kill because the Swami was working from 1947 onwards for the total upliftment of the janjati communities and was opposing cow slaughter. These charitable activities of Swamiji were considered as great hurdle in the path of rapid mass conversion. In the Maoist Organization in Kandhmal, majority of its armed gang are Christians who killed Swamiji on Krishna Janmastami Day – the 23<sup>rd</sup> August 2008.

The various Church organizations have spread their well-knit tentacles in every nook and corner of the country including Nepal, Bhutan and Myanmar. The Catholic organizations have appointed Bishops and Archbishops throughout the country to monitor the conversion business while Baptists and other protestant Churches too have their own net work at national and international level. Thus, they have gripped our country like an octopus. Madrassa and Masjid network of Muslims are another octopus. These entire organizational network is meant for conversion and secession.

In this context, the conversion is violence. It is violence to the deepest person, the core person in the human being. The religious person is the deepest. Since this person is hurt, I say, it is violence. It is pure violence. It wipes out cultures. The native cultures of South America, North America and Australia have all been destroyed. What about the Hawaiian culture? Gone! All the Janjati cultures of Africa have been destroyed. Scores of cultures for the past two thousand years are methodically destroyed. The humanity is suffering and poor of it. With the destruction of religion comes the destruction of culture. When a new religion replaces the old, the culture is destroyed. A culture cannot be retained if the religions are destroyed because one cannot separate culture from religion. Our religion and culture are intertwined. The religion has gone in the fabric of culture. Every form of culture is connected to religion and the religion itself is rooted in the spiritual wisdom. And therefore, there is no cultural form unconnected to religion. Destruction of religion is, therefore, destruction of religion. If this destruction is not violence, what is, then, violence?

#### The Muslim Invasion :-

About 1.3 billion Muslims of the world believe Islam to be the only true religion and they believe Quran as the revelation of Allah and the only true path. There is hardly any Hindu who has gone through the Quran diligently. As a result, the Hindus have remained totally ignorant of the core reality behind the Islamic invasions and onslaughts they have been facing for the last one thousand years. The situation is further worsened by those Hindu secularists who, without even turning a single page of the Quran, never cease to holler that 'Islam preaches tolerance towards all other religions; that it stands for universal brotherhood; that Islam means peace and etc. etc'.

I request to take little trouble and read Quran thoroughly and diligently. Don't rely on what the secularists and the Muslim intellectuals say about the doctrine of Islam.

Our Bharatvarsh was divided in 1947. Reason: The Muslims felt that they could not live with Hindus. Result: Tens of millions of Hindus were slaughtered in the land of their forefathers; tens of thousand of Hindu women were raped, mutilated. Many, many of them were distributed among Allah's faithfuls as rewards of Jihad; again many were sold and purchased like cattle in the open markets of Lahore, Karachi, Rawalpindi and Naokhali. At the cost of blood, flesh and honour of millions of Hindus, a new state was born: Pakistan – a holy (Pak) Land (Sthan) only for Muslims. But the Hindus who lost their lives, lands and honour for the only "fault" of being Hindus, got such a secular Bharatvarsh to live in where even after sixty years of partition, Hindu pilgrims got gunned down by the Jehadis, their temples are blown up, train-full of Hindus get roasted alive in the flames of Jihad where Hindu women are still abducted and raped by the 'Jehadis' and the Hindus of Kashmir, Mizoram and Assam are forced to live in refugee camps in their own motherland. These have been precisely the outcomes of the 'Made in Europe' brand of secularism imposed on us by the professional secularists of our country.

In 1983, Sayed Sahabuddin, the eminent leader of the Bharatiya Muslims remarked, "Hindus prefer secularism because they are cowards and are afraid of Muslims. The Hindus have learnt to bend down like grass and lie down when Muslim horsemen have trampled them." (Sunday Magazine 20.03.1983). But instead of pulling out his tongue for this remark we made this jehadi a Member of Parliament. This unique specimen of secularism was first espoused in our country by Gandhiji who said : "Hindus should never be angry against the Muslims even if the latter might make up their minds to undo even their existence. If they (Muslims) put all of us (Hindus) to the sword, we should court death bravely." This above example of 'Bapuji brand secular wisdom', explains the 'basic feature' of this suicidal secularism prevailing in today's Bharatvarsh. And now, to pursue this "Gandhi-inspired" secularism we have a whole lot of secularist politicians, intellectuals and media-men competing with each other to prove their secular credentials. In this amazingly secularist establishment of the country, honeymooning with the "Muslim League" and 'Jehadi elements' is considered absolutely secular but even chanting the hymn of Sarawati or singing of Vande Mataram or even hanging of portrait of Veer Savarkar-the great revolutionary in the Central Hall of Parliament tantamount to communalism, fascism and danger to the county. The Petro-dollar fed intellectuals, arms-chair activist and media persons shed gallons of tears when the Hindus demolished a monument of Islamic vandalism and reclaim the birth place of Sri Ram at Ayodhya. From the 'Ram Mandir Movement and Ram Setu Bachao Andolan' to 'America's Iraq campaign' and from the 'Nuclear Test' to 'Saraswati Vandana', every such issue evokes severe condemnation and abusive rhetoric from these self-styled conscience-keepers of the country. But when lakhs of Hindus including Sikhs were uprooted from their homes in Kashmir, when innocent Hindu pilgrims were sprayed with bullets on their way to the Amarnath shrine, when devotees at Akshardham Mandir were blown up, when thousands and thousands of Hindu women were gang-raped by the Muslims in Bangladesh, when our Parliament and Jammu and Kashmir assembly were blasted by

Muslims Jehadis, when the Hindus of Nelli, Gohpur, Udalgudi, Darang, Tinsukia and Guwahati of Assam were bombed, when thousands of Rong Buddhist were killed and over fifty thousands of them were forcibly displaced in Mizoram, when Chakma Buddhists are tortured and discriminated by Christian Government of Mizoram, when followers of Rani Gaidinliu (Heraka religion) and other indigenous religions are subjected to torture in Nagaland, then these vanguards of secularism are found to be maintaining a strange but obvious silence. And when asked about their reaction to such atrocities on Hindus, very cautiously they say that they condemn such acts of terrorism and then immediately add that Islam is a religion of peace, it does not inspire acts of terrorism against the non-Muslims, terrorists are only misusing Islam and that the terrorism should not be linked with Islam and Muslim Community etc. They also speak the same about Christianity. But the bare fact is that in most of the places of world where the Muslims are there in substantial numbers, there prevail the problems of separatism, theocratic excesses, persecution, Islamic terrorism and insurgency. In the subcontinent, Bharatvarsh and Islamic Republic of Pakistan have fought four full scale wars and Pakistan sponsored Islamic Jehadis are fighting secessionist battle in Bharatvarsh. More than 5, 00,000 Hindus have been driven out from the Muslim dominated Kashmir valley, more than 10,000 Bahratiya Security personnel's have been killed so far in Kashmir alone. Bomb-blasts by our home grown Jehadis, extortion, rioting, abduction and rape of Hindu women in pocket areas where Muslims are majority and continuous infiltration from Bangladesh have become steady features of Islamic 'holy war' in Bharatvarsh. In Bangladesh, the Islamic groups are persecuting the Hindus and Buddhists with the help of the state Islamic machinery. In 1971, thousands of our soldiers sacrificed their lives to liberate Bangladesh from clutches of Pakistan. But now in that same Bangladesh, Hindu women are subjected to rape and forced marriage by the Muslims. The Bangladesh provides space and facilities to terrorists' organizations of Northeast region. It also arranges arms training for insurgents

Assam has been the hot-bed of Muslim terrorism. Since partition days Muslims have an eye to turn Assam into a Muslims country and Pakistan and Bangladesh are in league to carve out Assam from Bharatvarsh by pushing Muslims from Bangladesh and creating terror there. Therefore, the bomb explosions and terrorist acts of Muslim Jehadi organizations have become the order of the day. The latest terrorist attacks on Hindus are in the month of September in Udalguri and Darrang districts of Assam wherein 40 people were killed and nearly 200 houses were burnt. Again, as many as 88 people have been killed and over 800 injured in the nine synchronized blasts by Muslims terrorists that rocked Assam on October 30. Almost eight districts of lower Assam have become Muslim majority and these Bangladeshis are advancing towards Upper Assam and neighboring states. There are several Islamic groups that have kept army and intelligence officials on their toes. They are 1).Islamic Revolutionary Front (IRF) 2).Islamic Liberation Army of Assam (ILAA) 3).Islamic United Liberation Army (IULA) 4).Assam Minority Liberation Army (AMLA) 5).Students Islamic Movement of India (SIMI) 6).Muslim United Front of Assam (MUFA) 7).Muslim Liberation Tigers of Assam (MLTA) 8).Muslim Liberation Front

of Assam (MLFA 9).United Special Reforms of Assam 10).Muslim Volunteers Force 11).Tigers Liberation Front of Assam 12). Islamic Revolutionary Army (IRA) 13).Saddam Bahini 14).Islamic Sevak Sangh (ISS) and 15).Bharatiya Islam Sanskar Pratibad Bahini.As per intelligence input reported in media, ISI have managed to infiltrate into Assam a number of its agents in the guise of Imams. The Jamaat-e-Islami of both Pakistan and Bangladesh are maintaining close links with Muslim militant organizations. All these Muslim organizations are helping every new comer from Bangladesh and selfish politicians including Chief Minister Tarun Gogoi of Assam are patronizing Bangladeshi Muslims keeping an eye on their vote bank.

Arunachal is adjacent to Assam and these Muslims are penetrating into our state too. The people of Arunachal Pradesh and the state Government should effectively check the influx of foreigners from Bangladesh. The people also should be alert against these Bangladeshis. These Muslims are now adopting Hindu names and Hindu dress to hide their identity. They are marrying local girls and creating a hybrid race which will prove a grave danger to the native society.

#### A Wake up call to the youths

The politicians look for next election whereas the veterans of the society look for next generation. The politician and state governments may ignore these burning problems but the youths-the vital section of the society, cannot do so because this will pose danger to the very existence of the society. Therefore, the youths must come forward to protect our state from these dangers.

Also, the people of the state must cooperate with government in establishing developmental projects which will be main stay of sustenance in future. They should never create any hurdle in this regard.

The youths should be alert and resist conversion to Christianity and illegal occupation of our land and resources by Bangladeshi Muslim infiltrators. The Muslims should be socially boycotted. The youths should also check the emergence of any insurgent organization which will destroy the peace and harmony of the Society.

#### An Appeal to the State Government

The conversion to Christianity and influx of Muslims form Bangladesh has bred scores of terrorist organizations in our neighboring states of Assam, Nagaland, Manipur and Tripura. If these twin problems could be checked, the whole NE region could be peaceful and would have become one of the most developed regions in the county. However, our state is still free from these problems but the enemy forces have already entered into the state and they are working over time to disturb the religious demography, cause social upheaval and bloodshed and impede the economic development. We therefore, appeal to state Government i) to frame operative rules pertaining to Freedom of Religion Bill, 1978 ii) seal the state border and enforce the rigorous checking of Inner Line Permit to prevent Muslims infiltration iii) detect and deport the Bangladeshis already sneaked into the state not to Assam but to Bangladesh and iv) award severe punishment to the illegal infiltrators so that they do not dare to sneak into the state.

### To the Media

The Media is called fourth pillar of the democracy for its significant but constructive role in strengthening the democratic rule. But it has been noticed, of late, that it is also engaged in demonizing Hindu organizations and glorifying the anti-nationals on the plea of human rights. But nation is supreme and above all. Who dies when nation lives and who lives when nation dies. While writing and reporting, the media must keep national interest into the mind.

### And Lastly to the Central Government

Of late, Hindu Sanyasins and patriotic organizations have been dubbed as Hindu terrorist organizations. They are being framed under anti-terrorists laws whereas real terrorists are at large. This will have a serious and grave consequence on national security. It will also demoralize the patriotic forces. It must be stopped, otherwise it will boomrang. On one hand, the Central Government is funding the Haj pilgrims and on the other, they are torturing Hindu sanyasins and patriotic organizations. This must stop immediately.
